Peter Mutethia

Full-Stack Web Developer

Nairobi, Kenya · mutethiap25@gmail.com · +254 712 919 229 · github.com/helpertesh

SUMMARY

Full-stack web developer with front-end roots, building for the web since 2018. I design and ship responsive websites and web applications end to end: React and clean CSS on the front, Python (FastAPI, Flask) and Node.js on the back, PostgreSQL for data, and Git and Docker for delivery. I care about accessible interfaces, well-documented APIs and reliable deployment.

TECHNICAL SKILLS

Programming	Python, JavaScript (ES6+), C++, HTML5, CSS3
Front-end	React, Redux, Tailwind CSS, Bootstrap, responsive web design
Back-end & APIs	FastAPI, Flask, Node.js, Express.js, REST APIs, Pydantic, Swagger/OpenAPI
Databases	PostgreSQL, MySQL, SQLite; MongoDB fundamentals
Tools	Git, GitHub, VS Code, Postman, Docker, Docker Compose, Linux fundamentals
Practices	CRUD design, API testing, debugging, environment configuration, deployment workflows

PROJECTS

Hostel Booking Platform — 2025

HTML, CSS, JavaScript, Chart.js · cool-arithmetic-8f3db7.netlify.app · github.com/helpertesh/hostel-bookin

- Built a booking platform for Dedan Kimathi University of Technology students to browse hostels, check availability and reserve rooms.
- Implemented login and sign-up flows, a booking workflow and a Chart.js dashboard.
- Deployed on Netlify with a responsive layout that works on phones and desktops.

Restaurant Booking System — In progress

HTML, CSS, JavaScript, Firebase

- Online table reservations with customer notifications and an admin dashboard.

Weather Forecast App — In progress

JavaScript, Weather API, Geolocation

- Real-time weather with geolocation detection and a five-day forecast.

EXPERIENCE

Freelance Web Developer — Self-employed — 2019 – present

- Design and build responsive websites and small web applications for clients, from landing pages to booking systems.
- Handle the full delivery cycle: requirements, design, development, testing, deployment and hand-over.
