PROFESSIONAL SUMMARY

Third-year Bachelor of Science in Business Information Technology student at Dedan Kimathi University of Technology with hands-on project experience building responsive web interfaces, backend services, REST APIs, database-backed applications, and AI-assisted learning tools. Familiar with Python, FastAPI, JavaScript, React, Node.js, SQL databases, API testing, Git, and Docker. Seeking a three-month industrial attachment to contribute to software development projects while strengthening practical engineering skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap, responsive web design
Backend & APIs: Python, FastAPI, Node.js, Express.js, REST API design, CRUD operations, authentication and authorization, JWT
Databases: SQL fundamentals, PostgreSQL, MySQL, SQLite, database integration
Tools & Delivery: Git, GitHub, VS Code, Postman, Docker, Docker Compose, environment variables, deployment workflows
AI & Productivity: OpenAI APIs, prompt engineering, chatbots, AI-generated summaries and quizzes, Excel/spreadsheet analysis
Engineering Practices: Debugging, testing fundamentals, API validation, password-security concepts, collaborative version control

SELECTED PROJECTS

StudyFlow — Smart Campus Study Automation

- Developed a study-support application concept with features for units, notes, past papers, assignments, calendar planning, study sessions, and exam preparation.
- Worked with a JavaScript/Node.js backend and frontend tooling; explored authenticated API access and AI-assisted study functionality.

FastAPI Backend Projects — Bookstore, Library, GigHub & Product APIs

- Built and practiced backend API workflows involving resource management, CRUD operations, request validation, and database connectivity.
- Worked with Python, FastAPI, SQLModel/SQLAlchemy, PostgreSQL or MySQL, environment configuration, and API testing with Postman.

Personal Portfolio Website

- Created and deployed a portfolio website to present software projects and development skills.
- Portfolio: helperteshportfolio.netlify.app

Food Delivery Application

- Worked with a full-stack project environment using a frontend, backend services, Docker Compose, and a MySQL database.
- Practiced local database troubleshooting and application configuration for development.

EDUCATION

Dedan Kimathi University of Technology — Bachelor of Science in Business Information Technology
Year 3 | Kenya
